

Model # VBP-MaleRJ45

Model # VBP-FMaleRJ45

- Transmit at full motion Video and 12vDC Power over standard CAT 5 with a standard RJ45 Connector
- Distance of up to 1200ft color and 1800ft monochrome
- Built in impedance couple device and noise filter for exceptional interference immunity.
- Send Video and power over twisted pair or Cat5, Cat3 (UTP) and a standard RJ45 Connector Can be used with DVR's, CCTV, and Multiplexers.
- High quality video full motion Color video or black and white.
- Fast and easy installation.

## BEWARE

Recently, some distributors and or manufactures, have been making claims of distances up to 2,200 ft, of transmission for their passive baluns. Our baluns can do the same, however, these calculations “up to 2,200ft” may sometimes cause serious video loss and or interference. If you want a guarantee of crystal clear signals, please use the distances described within.
