- Fast and easy installation.
- Surge Protectors reduce costly damages caused by nature.

BEWARE

Recently, some distributors and or manufactures, have been making claims of distances up to 2,200 ft, of transmission for their passive baluns. Our baluns can do the same, however, these calculations “up to 2,200ft” may sometimes cause serious video loss and or interference. If you want a guarantee of crystal clear signals, please use the distances described within.
